    B) Location, because we want to walk to the beach.
    C) Our train has already left.

Read the text and answer questions 16 to 20.

CHOOSING A PLACE TO STAY

The Deniz family compared two holiday flats. Flat A was cheaper and nearer the beach, but it had stairs and no lift. Flat B cost slightly more and was farther from the beach, but a lift served every floor. Because the children's grandmother was joining them and found stairs difficult, the family chose Flat B. They decided to prepare some meals there to stay within their budget. Before paying, they asked whether the lift would be available throughout their visit. They also checked the cancellation conditions. The family wanted a suitable home for everyone, rather than simply the cheapest option.

16. Why did the family choose Flat B?
    A) It was easier for the grandmother to access.
    B) It was closest to the beach.
    C) It was the cheaper flat.

17. How did the price of Flat B compare with Flat A?
    A) It was slightly higher. B) It was exactly the same. C) It was much lower.

18. How did the family plan to manage their budget?
    A) By cancelling the grandmother's visit
    B) By preparing some meals at the flat
    C) By choosing extra paid services

19. What did they check before paying?
    A) The children's school timetable
    B) Lift availability and cancellation conditions
    C) The colour of every room

20. Which statement best describes their decision?
    A) They considered the needs of the whole family.
    B) They chose only according to distance.
    C) They ignored practical information.
