    A) although B) by C) unless

Read the text and answer questions 16 to 20.

Comparing Two Journeys

For a class project, Yaman asked his grandfather about travelling to school. His grandfather had walked for forty minutes because there was no bus from his village. Yaman now takes a bus and reaches school in fifteen minutes. However, his journey sometimes takes longer when traffic is heavy. Instead of saying that one period was better in every way, Yaman compared convenience, time and the environment. He ended his project with a question: how could his town make short journeys easier without adding more cars?

16. Why did the grandfather walk to school?
    A) There was no bus from his village.
    B) His school was inside his house.
    C) He preferred a forty-minute bus ride.

17. How long does Yaman's usual journey take?
    A) Fifteen minutes B) Forty minutes C) Two hours

18. What sometimes delays his bus?
    A) A missing village school B) A cancelled class project C) Heavy traffic

19. What approach did Yaman take?
    A) He claimed the past was perfect in every way.
    B) He compared several aspects of the journeys.
    C) He ignored the environment entirely.

20. What question interested him at the end?
    A) How to stop everyone attending school
    B) How to improve short journeys without more cars
    C) How to replace all walking with driving
